Jeremy Hamann

Series 65 | Wealth Management Operations | Trading & Custody | Advisor Technology

Raleigh, NC • jeremy@jeremyhamann.dev • jeremyhamann.dev • linkedin.com/in/hamannjeremy

Summary

I've spent about three years at RIAs, starting in centralized trading at CAPTRUST, then investment operations at Blue Trust, where I earned a double promotion to Senior Analyst and Team Lead after 19 months, and now brokerage operations at Evergreen Wealth. I hold my Series 65, I know custody, trading and billing well, and I like building tools that make advisors' jobs easier. I'd love to grow into an advisor role on a team that puts clients first.

Experience

Evergreen Wealth — Raleigh, NC

Oct 2025 – Present

Brokerage Operations Associate & Internal Tools Builder

- **Fee billing:** Owned monthly advisory fee billing across Schwab and Apex for roughly $124M in AUM, moving the cycle from the 14th–15th of each month to the first 4 days and eliminating the need for one full-time role. Maintained fee tiers, validated Alphathena average-daily-balance calculations, and checked fees against available cash.
- **Account transfers:** Created the ACAT Tracker, the Operations team's system of record for 640+ transfers across 37 custodians, and resolved transfer and trade issues directly with Schwab, Apex, and advisor teams.
- **Trading support:** Prepared unrealized gain/loss spreadsheets that helped advisors plan tax-aware trades, and built the Trade Request platform the firm's 4-person trading team uses daily.
- **Audits and compliance:** Helped pull and prepare large datasets for the firm's 2025 and 2026 SEC custody audits, and led delivery of the CCO's Form ADV AUM reporting dashboard.
- **Automation:** Built 16 production n8n workflows that automate withdrawal, funding, and mutual fund tasks, and a Gemini-powered pipeline that cut per-client ACAT statement analysis from 30–45 minutes to under 60 seconds.

Blue Trust — Alpharetta, GA

Jan 2024 – Oct 2025 (1 yr 10 mos)

***Double promotion** from Investment Operations Analyst to Senior Analyst and Team Lead after 19 months*

Senior Investment Operations Analyst / Team Lead — Aug 2025 – Oct 2025

- Led centralized trading operations and portfolio rebalancing initiatives across advisor teams, ensuring precise portfolio strategy alignment and timely execution.
- Trained and onboarded new Centralized Trading team members, teaching the concepts behind each trading process and reviewing their work for accurate outcomes.
- Developed, documented, and implemented internal procedures and checklists to streamline routine trade workflows.
- Spearheaded key operations projects, including the integration of capital gains budgets into centralized trading workflows.

Investment Operations Analyst, Trading — Jan 2024 – Aug 2025

- Researched, tracked, and resolved complex trade discrepancies and operational challenges to minimize firm risk and improve trade accuracy.

CAPTRUST — Raleigh, NC

May 2023 – Dec 2023

Centralized Trading Intern

- Created portfolio rebalance trades for multimillion-dollar and institutional accounts using Excel.
- Consolidated duplicate data sources into a centralized database, improving data accuracy, accessibility, and analysis.

Education & Licenses

Bob Jones University

Aug 2019 – Dec 2023

Bachelor of Business Administration (BBA) in Finance

Series 65 — Uniform Investment Adviser Law Examination
